Dr Hillary Esdon is joining the LAH team!

We are thrilled to welcome a new Veterinary Associate, Dr Hillary Esdon to our Lakeshore Animal Hospital Team!

Hillary graduated from McMaster University with a degree in Biochemistry and then continued her studies at the Ontario Veterinary College. Upon graduating with her Doctor of Veterinary Medicine in 2015, she began her career as a mixed animal veterinarian in a large practice south of Ottawa. Deciding to focus on companion animals exclusively, Hillary is joining our team at Lakeshore Animal Hospital, just half an hour from her hometown. With roots in this community already, Hillary's formal education involved rotations at the regional emergency after-hours hospital and at the Kingston Humane Society. She places a high value on continuing education, participating in conferences and seminars throughout North America at every opportunity. Special interests include behaviour, nutrition, internal medicine and surgery.

In her spare time, Hillary can be found running, practicing yoga, exploring the great outdoors, volunteering with veterinary outreach groups and spending time with her two dogs and two cats.

We are very happy she is part of the Lakeshore Animal Hospital team and we know our clients and patients will be too!
